**NEW LAVANDULA
SERIES FROM
PLANTINOVA**

Top selected varieties
with early flowering,
high amount of flowers,
strong leaves and
branching structure.

LIBELLE™ BLUE

The classic Spanish lavender with much earlier flowering, mounded- compact habit and deep blue colour compared with the existing varieties in the market.

LIBELLE™ PURPLE

An outstanding variety with good plant structure, upright-compact habit and big amount of flowers at the time of sales. The perfect Lavender for high volume sales in the traditional lavender market.

LIBELLE™ COMPACT ROSE

Same as Libelle compact Blue with very nice dark pink color, quite unusual in Lavenders. Early flowering and high flowering capacity.

EVER™ GREAT BLUE

The super-lavender. Medium compact plant with strong stems and the biggest flower head ever seen in the category. Well suited for high value product.

LIBELLE™ COMPACT BLUE

An improvement of Bella and Madrid series. Compact plant with well branched structure and early flowering at the beginning of spring. High flowering capacity.

	Earliness (Ready for sale) (*1)	Plant habit	Plant height (cm)	Flower Head (cm)
