FRUIT TREES
FOR SMALL
SPACES

Mmm... finally you can enjoy your fruit trees in patios and terraces.

FRUIT ME collection offer's you small trees adapted to grow in different container sizes depending on the development you expect. And if you want, you can also transplant it in the ground of your garden or private orchard.

FRUIT ME is a selection for you of the most tasty varieties from a list of popular fruit species; allowing you to make your own choice at any time.

FRUIT ME small trees are grafted on the most innovative rootstock which reduces the vigor of the plant, provide a controlled growth and improve characteristics of the fruits.

ICE PEACH®

The Premium white peach with crispy and juicy texture and very sweet taste, ripening by early to mid-July.

PEACH ME RED

The classical peach with white flesh, juicy, aromatic and soft texture. Ripening by middle to end June.

PEACH ME YELLOW

The traditional yellow peach with strong flesh, highly aromatic and excellent taste. Ripening in mid-August.

NUT ME ALMOND

Fruits with soft shells - nuts long and sweet. Harvest end September as dry fruit. Good taste to consume as green fruits in July.

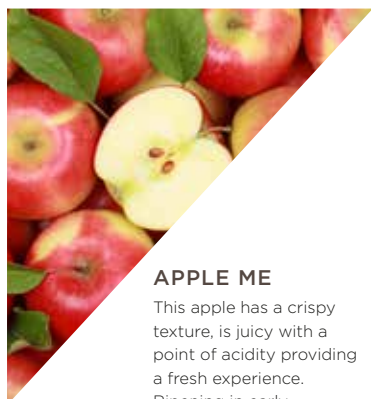

PEACH ME DONUT

Flat peaches are practical to eat, extremely sweet and aromatic. Ripening in mid-July.

PLUM ME

The flesh is durable, yellow and can easily be detached from the pit. Harvest time September week 1 or 2.

APPLE ME

This apple has a crispy texture, is juicy with a point of acidity providing a fresh experience. Ripening in early September.

APRICOT ME

A great colour of fruit, extremely decorative against the light green leaves. Harvest time mid to end of June.

NECTA ME

Sweet and juicy selection of nectarine. Ripening by end of July to beginning of August.

CHERRY ME

Cherry with large, fleshy fruits and intense red color. Ripening by mid-June.
